Permission request for usage of datasets in OpenStreetMap

To: hri@hel.fi

Hi!

I am one of many contributors to [OpenStreetMap](#), a free, editable map of the whole world that is being built by volunteers and released with an open-content license.

We have seen that [Helsinki Region Infoshare](#) has released orthophotos and other open datasets under the CC BY 4.0 license. We would like to get your confirmation that these datasets may be used by OpenStreetMap.

OpenStreetMap is using the [ODbL](#) license for its data. Attribution to Helsinki Region Infoshare will be made at [OSM Contributors](#) in OpenStreetMap Wiki.

Sincerely,
Elias Ojala

Lahti Tanja

VS: Permission request for usage of datasets in OpenStreetMap

To: Elias Ojala, Cc: Helsinki Region Infoshare

Hi Elias!

Yes, all the data sets published at [hri.fi](#) service are freely available for any purposes but the original data source should be mentioned somewhere in the use case (in application, map or report etc.). Nice to hear that you are interested in to utilize these data sets.

The ideal way to mention the data source would be like this: "Source: [Orthophotograph of Helsinki 1932](#). The maintainer of the dataset is Helsingin kaupunkiympäristön toimiala / Kaupunkimittauspalvelut and the original author is Helsingin kaupunkiympäristön toimiala. The dataset has been downloaded from Helsinki Region Infoshare service on 07.08.2018 using the license Creative Commons Attribution 4.0."

Best regards,
Tanja Lahti / HRI service
